

Our Stand

Our stand and philosophy on Holy Orders: we believe in the strict contents in the Canon Law of the Independent Catholic Union, USA on Holy Orders, That "it was and shall be unlawful for any member of the episcopacy of the ICU to offer, confer, or celebrate the sacrament of Holy Orders for any candidate to Holy Orders in exchange for any donation or tithe, no matter what form the donation or tithe may take.

That is to say money, goods, valuables or services, or any other article. Likewise, it shall be unlawful for any member of the Episcopacy of the ICU to offer for the above mentioned consideration(s) elevation to the Episcopacy to any candidate eligible and approved for the same. Violation of this is Simony and will not be tolerated, accepted or condoned in any manner. This in and of itself may result in the immediate revocation, nullification and termination of any association or affiliation with the ICU..."(Canon 11)

But over the years we have come to discover that what you don't value you don't attract as such we had to place value on the credentials to make people value what we are doing and ward off those that would have trifled with our papers. I have seen in more than two cases where candidates to Holy Orders who were consecrated as Bishops and Archbishops desecrated this Holy Calling by discarding the Papers they were given FREE. As such I will not like to see such an incident again at least not in our Ministry.

By the way such monies and donation have been of tremendous help in alleviating lots of ministry needs. The stationeries are bought with hard earned monies so also the design, printing and calligraphic writing on the Credentials. If you will want beautiful and respectable Credentials the monies will definitely come from the Candidates. That does not mean there are no criteria used for appointing candidates into Holy Orders. It is true that gifts most at times blinds good judgment. But that will not stop us from receiving donations and even tasking such candidates in order to see if they can defend such honor/calling expensively bestowed on them. While Simon was greedy for power to do the supernatural as an extension of his magical acts such quests must definitely be rebuked. That will rather make us put a serious check on those that are seeking to be elevated into Holy Orders. I know so many people who still hide their cherished certificate under their boxes. United Fellowship of Christ would say on Ordinations that Donations are accepted but not expected. I leave it at the discretion of such candidates for Holy Order.

No good donations no good papers. If Episcopal signet-rings are costing around \$3000.00 and the legitimate papers just some paltry sum of money, there is a great need for ORDER. It is TRUE that man cannot BUY his way into Holy Orders it is a priceless office. We endeavor to make sure that none of our cherished papers are turned into tissue papers but valid papers, considering all the cost we put into packaging the Legal documents. Had it been we have people with the philosophy of St. Francis of Assisi and St. Anthony of Padua; who will need donations from candidates? considering the fact that there will be enough to take care of everything, but in a situation where we have stingy members of the parsonage, candidates will definitely have to take care of their ceremonies. I didn't pay any dime for any of my papers because it was taken care of by my mentoring ministry. But now that I am Independent of UFCMI the monies must definitely come from YOU, I MEAN YOU!!! That is interested in our papers. Now, we are not in any way accountable to the ICU but use their Canon Law as a guide for most of what we are doing in Ministry, Most especially the Ecumenical Structure and Professional conduct of the Clergy. God bless you as we endeavor to 'Occupy till He Comes'. Amen

+ Dr. Genesis A. Dawuda

Credentials order form For Ordained Priests: All the papers below are Legal papers recognized by God and the Religious/civic laws of the United States of America.

Item Description & Amount

Ordination Package (pocket ID, Certificate)
