

## The Mind

Who can tell me what the mind is all about?  
I really want to know.  
How big is it as in size?  
Is it ugly or beautiful as in features?  
Is it gracious or dangerous?  
Where is it located?  
When a man dies, where does his mind go to?  
Does it fizzle out and die too?  
Or does it keep on living?  
What is its scope and capacitance in storing retrievable information?  
I learnt that the mind can picture the future?  
I also learnt that the mind can recall the past?  
Yes, is it true that it can reason out things?

If scientific research is true,  
That there are around 14billion cells in the brain,  
I won't be surprise.

Yes, I also learnt that what the mind of man can conceive and believe it can also achieve.  
Hey wait!!!!  
I learnt God is 'mindful' of us,  
Does that mean He's got a mind?  
If man's mind has about 14billion cells, how many will that of God be?  
I believe it will be 14billion cells times X (where X represents the number unknown)

Do you know another man's mind?  
Do you know God's mind?  
Do you know how to mind your own business?  
Can you think without your mind?  
Do you know how the mind operates?

Since the mind is so powerful,  
Why don't you mind your mind,

And mine great treasures if you mind.

14billion cells disallowed to express their true freedom  
of networking in the brain.

Don't blow your mind with drugs,  
Blow your mind with positive, and creative thinking.  
Travel from the shores of your mind  
Into the ocean of your mind.  
Spread the sail of reasoning,  
And allow the wind of thinking  
To sail you right into the depth  
Of the heart of the ocean of your mind.

Until we leave the shores of our minds,  
We will never discover the ocean of our minds.

The mind adores soberness  
The mind is a friend of the intellectuals  
The mind hates socialites (Feasting in the morning, noon and night)  
The mind likes voracious readers.  
The mind loves contemplative thinkers.

If you want your mind to swell  
Think on these things:  
Think on things that are, lovely, honest, just, pure, true and of good report.  
Let your mind think on things that are virtuous and praiseworthy.

If you have no mind to capture  
Let the mind of Christ be in the picture.

Let the tornado of your mind  
Whirl you into greatness.

What is that woman doing there?  
Sitting by the bent begging for dime?  
Pity!  
She knows not what manner of creature she is.  
Caging the mind of Gold  
Yet, begging for swine feeds.  
What a pity!!  
Who will tell her;  
That the acres of diamond,  
Is hid within her?  
All she need to do is to develop it.

Many men are busy doing  
What in a real sense and tense is not a-doing.  
Get into the world of your mind  
And capture the world of your dreams.

Use your mind to;  
Read, study, meditate, and think, think, and think.

The mind thrives on a healthy body,  
Therefore, bodily exercise is important.  
For fresh oxygen to get into the brain.

The mind, like the computer,  
Needs constant overhauling and deleting of information.  
The mind's capacitance is enlarged  
Through constant and steady practice.  
The mind, works on the garbage in, garbage out principle.

The mind has a great limit  
The mind gets you to a place  
Where it can't be able to deliver again.

The mind took Charles Darwin there and stopped  
It took Albert Einstein there and stopped.  
The limit is where postulations, theories and assumptions begin.

The human spirit starts its jolly ride  
Where the human mind stops.  
This is what scientists call the subconscious mind.

The resources of the sub-conscious mind far outweighs that of the conscious mind.

A lot of creative thinkers ran insane because they could not cross over into the so-called sub-conscious.  
That realm that made Smith Wigglesworth say he is 1000 times bigger on the inside.  
I think I will prefer the right to call this sub-conscious mind, the spirit-man, for what it really is  
according to the Holy Scriptures.

Men exert physical energy to become successful. While their mental energy is mocked into silence;  
someday they'll be shocked.

To be successful, let your mind thrive on God's Holy writ.  
Which is the best point of focus.  
While your mind's feet rests on the rock of God's holy Word, you can then stargaze into the outer space

of your mind.

If you want to flex your muscles, I'll suggest that you flex the muscle of your mind.

The word of God is the best craft that you can use to get into distant futuristic lands.

No wonder it was recorded that lesser minds discuss people and issues while great minds discuss ideas.

The world of your mind has a lot of undiscovered treasures.

The Holy scriptures contains a verse stating that ;

'eye hath not seen, the ear hath not heard, the heart of man heart not perceived what God hath prepared for those that love Him. But God hath revealed them unto us by His Spirit: for the Spirit searcheth all things, yea, the deep things of God.

Now we have received, not the spirit of the World, but the Spirit which is of God; that we might know the things that are freely given unto us of God. Which things also we speak, not in the words which men's wisdom teacheth, but which the Holy Spirit teacheth; comparing spiritual things with spiritual.

But the natural man receiveth not the things of the Spirit of God: for they are foolishness unto him(No wonder they foolishly call the spirit realm the sub-conscious): neither can he know them, because they are spiritually discerned. But he that is spiritual judgeth all things, yet he himself is judged of no man.

For who hath known the mind of the Lord, that he may instruct him? But we have the mind of Christ.'

New songs, New cars, new political systems, great structure(high rise), space crafts, policies, and cures are still lying dormant in the minds of men. Great wonders that world has never seen is still in the minds of many people. Great books have not yet been written/published, the movie has not yet been produced, the best software for solving complex problems has not yet been designed. The greatest breakthrough is yet to be. The best is yet to come until men set their minds to work.

Do you know how many information that can be retrieved from the hard drive of a computer? How many papers will it take copy out all the data? And mind you all these move at the speed of light.

Men get so fascinated over the efficiency of a computer. God is light and He owns our minds. The efficiency of the human mind beats that of the computer 1000 times over.

There are tiny lights that the brain cells emit, as such it is not surprising when Job the Patriarch recounted the days when God's candle shone upon his tabernacle.

The world of your mind is a world which you can keep entering, shopping for ideas. A world where time is mocked and the future is glanced and gazed at with great joy and expectancy.

If God's thoughts are not man's thoughts, why can't you clasp your hands with the maker of your mind and expand the scope of your mind with His help.

Let's renew our mind and transform the world. No, I mean our world.

As a man thinketh so is he;

as the world thinketh so is she.

Be wise!

Use your mind!!!!
